PRELIMINARY OFFICIAL STATEMENT DATED MARCH 28, 2024

In the opinion of Kennedy & Graven, Chartered, Bond Counsel to the District, based on present federal and Minnesota laws, regulations, rulings and decisions (which exclude any pending legislation which may have a retroactive effect) and, assuming compliance with certain covenants set forth in the resolution approving the issuance of the Bonds, interest to be paid on the Bonds is excludable from gross income for federal income tax purposes and, to the same extent, is excludable from taxable net income of individuals, trusts, and estates for Minnesota income tax purposes, and is not a preference item for purposes of computing the federal alternative minimum tax or the Minnesota alternative minimum tax imposed on individuals, trusts, and estates. However, such interest is included in determining the adjusted financial statement income of applicable corporations for purposes of computing the alternative minimum tax imposed on such applicable corporations and is subject to Minnesota franchise taxes on certain corporations (including financial institutions) measured by income. No opinion will be expressed by Bond Counsel regarding the other state or federal tax consequences caused by the receipt or accrual of interest on the Bonds or arising with respect to ownership of the Bonds. See "TAX EXEMPTION" herein.

The District will designate the Bonds as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Internal Revenue Code of 1986, as amended, relating to the ability of financial institutions to deduct from income for federal income tax purposes, interest expense that is allocable to carrying and acquiring tax-exempt obligations.

INTRODUCTORY STATEMENT

This Preliminary Official Statement contains certain information regarding Independent School District No. 423 (Hutchinson Public Schools), Minnesota (the "District") and the issuance of its $3,815,000* General Obligation School Building, Facilities Maintenance and Capital Facilities Bonds, Series 2024A (the "Bonds"). Any descriptions or summaries of the Bonds, statutes, or documents included herein are not intended to be complete and are qualified in their entirety by reference to such statutes and documents and the form of the Bonds to be included in the resolution authorizing the issuance and sale of the Bonds ("Award Resolution") to be adopted by the School Board on April 8, 2024.

Inquiries may be directed to Ehlers and Associates, Inc. ("Ehlers" or the "Municipal Advisor"), Roseville, Minnesota, (651) 697-8500, the District's municipal advisor. A copy of this Preliminary Official Statement may be downloaded from Ehlers' web site at www.ehlers-inc.com by connecting to the Bond Sales link and following the directions at the top of the site.

THE BONDS

GENERAL

The Bonds will be issued in fully registered form as to both principal and interest in denominations of $5,000 each or any integral multiple thereof, and will be dated, as originally issued, as of May 2, 2024. The Bonds will mature on February 1 in the years and amounts set forth on the cover of this Preliminary Official Statement. Interest will be payable on February 1 and August 1 of each year, commencing February 1, 2025, to the registered owners of the Bonds appearing of record in the bond register as of the close of business on the 15th day (whether or not a business day) of the immediately preceding month. Interest will be computed upon the basis of a 360-day year of twelve 30-day months and will be rounded pursuant to rules of the Municipal Securities Rulemaking Board ("MSRB"). **The rate for any maturity may not be more than 2.00% less than the rate for any preceding maturity. (For example, if a rate of 4.50% is proposed for the 2025 maturity, then the lowest rate that may be proposed for any later maturity is 2.50%.)** All Bonds of the same maturity must bear interest from the date of issue until paid at a single, uniform rate. Each rate must be expressed in an integral multiple of 5/100 or 1/8 of 1%.

Unless otherwise specified by the purchaser, the Bonds will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). (See "Book-Entry-Only System" herein.) As long as the Bonds are held under the book-entry system, beneficial ownership interests in the Bonds may be acquired in book-entry form only, and all payments of principal of, premium, if any, and interest on the Bonds shall be made through the facilities of DTC and its participants. If the book-entry system is terminated, principal of, premium, if any, and interest on the Bonds shall be payable as provided in the Award Resolution.

The District has selected Bond Trust Services Corporation, Roseville, Minnesota ("BTSC"), to act as paying agent (the "Paying Agent"). BTSC and Ehlers are affiliate companies. The District will pay the charges for Paying Agent services. The District reserves the right to remove the Paying Agent and to appoint a successor.

*Preliminary, subject to change.

OPTIONAL REDEMPTION

At the option of the District, the Bonds maturing on or after February 1, 2032 shall be subject to optional redemption prior to maturity on February 1, 2031 or any date thereafter, at a price of par plus accrued interest to the date of optional redemption.

Redemption may be in whole or in part of the Bonds subject to prepayment. If redemption is in part, the selection of the amounts and maturities of the Bonds to be redeemed shall be at the discretion of the District. If only part of the Bonds having a common maturity date are called for redemption, then the District or Paying Agent, if any, will notify DTC of the particular amount of such maturity to be redeemed. DTC will determine by lot the amount of each participant's interest in such maturity to be redeemed and each participant will then select by lot the beneficial ownership interest in such maturity to be redeemed.

Notice of redemption shall be sent by mail not more than 60 days and not less than 30 days prior to the date fixed for redemption to the registered owner of each Bond to be redeemed at the address shown on the registration books.

SECURITY

The Bonds will be general obligations of the District to which its full faith and credit and taxing powers are pledged.

In accordance with Minnesota Statutes, the District will levy each year an amount not less than 105% of the debt service requirements on the Bonds, less estimated collections of other revenues pledged for payments on the Bonds. In the event funds on hand for payment of principal and interest are at any time insufficient, the District is required to levy an ad valorem tax upon all taxable properties within its boundaries without limit as to rate or amount to make up any deficiency.

For Capital Facilities Bonds issued pursuant to Minnesota Statutes, Section 123B.62, the District is required to make an annual debt service levy equal to 105% of the debt service requirements on the Bonds. There will be an offsetting reduction each year in the District's general fund tax levy.

RATING

The District will be participating in the State of Minnesota Credit Enhancement Program ("MNCEP") for this issue and is requesting a credit enhanced rating from Moody's Investors Service, Inc. ("Moody's"). Moody's has a policy which assigns a minimum rating of "Aa1" to issuers participating in the MNCEP. The "Aa1" rating is based on the State of Minnesota's current "Aaa" rating from Moody's. See "STATE OF MINNESOTA CREDIT ENHANCEMENT PROGRAM FOR SCHOOL DISTRICTS" for further details.

The District currently has a "Aa3" underlying rating from Moody's and will be requesting an underlying rating on this issue. Such rating, if any, reflects only the views of such organization and explanations of the significance of such rating may be obtained from the rating agency furnishing the same. Generally, a rating agency bases its rating on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance that such rating will continue for any given period of time or that it will not be revised downward or withdrawn entirely by such rating agency, if in the judgment of such rating agency circumstances so warrant. Any such downward revision or withdrawal of such rating may have an adverse effect on the market price of the Bonds.

Such rating is not to be construed as a recommendation of the rating agency to buy, sell or hold the Bonds, and the rating assigned by the rating agency should be evaluated independently. Except as may be required by the Disclosure Undertaking described under the heading "CONTINUING DISCLOSURE" neither the District nor the underwriter undertake responsibility to bring to the attention of the owner of the Bonds any proposed changes in or withdrawal of such rating or to oppose any such revision or withdrawal.

STATE OF MINNESOTA CREDIT ENHANCEMENT PROGRAM FOR SCHOOL DISTRICTS

By resolution adopted for this issue on August 14, 2023, (the "Resolution"), the District has covenanted and obligated itself to be bound by the provisions of Minnesota Statutes, Section 126C.55, as amended, which provides for payment by the State of Minnesota in the event of a potential default of a school district obligation (herein referred to as the "State Payment Law" or the "Law"). The provisions of the State Payment Law shall be binding on the District as long as any obligations of the issue remain outstanding.

Under the State Payment Law, if the District believes it may be unable to make a principal or interest payment for this issue on the due date, it must notify the Commissioner of Education as soon as possible, but not less than 15 working days prior to the due date (which notice is to specify certain information) that it intends to exercise the provisions of the Law to guarantee payment of the principal and interest when due. The District also covenants in the Resolution to deposit with the Paying Agent for the issue three business days prior to the date on which a payment is due an amount sufficient to make that payment or to notify the Commissioner of Education that it will be unable to make all or a portion of the payment.

The Law also requires the Paying Agent for this issue to notify the Commissioner of Education if it becomes aware of a potential default in the payment of principal and interest on these obligations, or if, on the day two business days prior to the payment date, there are insufficient funds to make the payment or deposit with the Paying Agent.

The Law also requires, after receipt of a notice which requests a payment pursuant to the Law, after consultation with the Paying Agent and District, and after verifying the accuracy of the information provided, the Commissioner of Education shall notify the Commissioner of Management and Budget of the potential default. The State Payment Law provides that "upon receipt of this notice . . . the commissioner of management and budget shall issue a payment and authorize the commissioner of education to pay to the paying agent for the debt obligation the specified amount on or before the date due. The amounts needed for the purposes of this subdivision are annually appropriated to the [Department of Education] from the state general fund."

The Law requires that all amounts paid by the State on behalf of any school district are required to be repaid by the district to the State with interest, either via a reduction in State aid payable to the district, or through the levy of an ad valorem tax which may be made with the approval of the Commissioner of Education.

In its Official Statement dated August 1, 2023, for General Obligation State Bonds, Series 2023A, 2023B, 2023C, 2023D and 2023E, the State of Minnesota disclosed the following information about the State Credit Enhancement Program for School Districts:

"As of June 30, 2023, the total amount of principal on certificates of indebtedness and capital notes issued for equipment, certificates of participation and bonds, plus the interest on these obligations, through the year 2050, is approximately $17,500,000,000. Based upon these currently outstanding balances now enrolled in the program, during the Current Biennium the total amount of principal and interest outstanding as of June 30, 2023, is currently estimated at $2,700,000,000, with the maximum amount of principal and interest payable in any one month being $1,060,000,000. However, more certificates of indebtedness, capital notes, certificates of participation and bonds are expected to be enrolled in the program and these amounts are expected to increase.

The State has not had to make any debt service payments on behalf of school districts or intermediate school districts under the program and does not expect to make any payments in the future. If such payments are made the State expects to recover all or substantially all of the amounts so paid pursuant to contractual agreements with the school districts and intermediate school districts."

CONTINUING DISCLOSURE

In order to assist brokers, dealers, and municipal securities dealers, in connection with their participation in the offering of the Bonds, to comply with Rule 15c2-12 promulgated by the Securities and Exchange Commission, pursuant to the Securities and Exchange Act of 1934, as amended (the "Rule"), the District shall agree to provide certain information to the Municipal Securities Rulemaking Board ("MSRB") through its Electronic Municipal Market Access ("EMMA") system, or any system that may be prescribed in the future. The Rule was last amended, effective February 27, 2019, to include an expanded list of material events.

On the date of issue and delivery of the Bonds, the District shall execute and deliver a Continuing Disclosure Certificate, under which the District will covenant for the benefit of holders including beneficial holders, to provide electronically, or in a manner otherwise prescribed, certain financial information annually and to provide notices of the occurrence of certain events enumerated in the Rule (the "Disclosure Undertaking"). The details and terms of the Disclosure Undertaking for the District are set forth in Appendix D. Such Disclosure Undertaking will be in substantially the form attached hereto.

A failure by the District to comply with any Disclosure Undertaking will not constitute an event of default on the Bonds. However, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

In the previous five years, the District believes it has not failed to comply in all material respects with its prior undertakings under the Rule. The District has reviewed its continuing disclosure responsibilities along with any changes to the Rule, to ensure compliance. Ehlers is currently engaged as dissemination agent for the District.

LEGAL OPINION

An opinion as to the validity of the Bonds and the exemption from taxation of the interest thereon will be furnished by Kennedy & Graven, Chartered, Minneapolis, Minnesota, Bond Counsel to the District ("Bond Counsel"), and will be available at the time of delivery of the Bonds. The legal opinion will state that the Bonds are valid and binding general obligations of the District; provided that the rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or equitable proceeding). See "FORM OF LEGAL OPINION" found in Appendix B.

TAX EXEMPTION

On the date of issuance of the Bonds, Bond Counsel will render an opinion that, at the time of issuance and delivery of the Bonds to the original purchaser, based on present federal and State of Minnesota laws, regulations, rulings and decisions (which exclude any pending legislation which may have a retroactive effect), and assuming compliance with certain covenants set forth in the Award Resolution, interest on the Bonds is excludable from gross income for federal income tax purposes and, to the same extent, is excludable from the taxable net income of individuals, trusts, and estates for Minnesota income tax purposes, and is not a preference item for purposes of computing the federal alternative minimum tax or the Minnesota alternative minimum tax imposed on individuals, trusts, and estates. However, interest on the Bonds is included in determining the annual adjusted financial statement income (as defined in Section 59(k) of the Internal Revenue Code of 1986, as amended (the "Code")) of applicable corporations (as defined in Section 59(k) of the Code) for purposes of computing the alternative minimum tax imposed on such applicable corporations and is subject to Minnesota franchise taxes on certain corporations (including financial institutions) measured by income. Section 59(k) of the Code defines "applicable corporation" as any corporation (other than an S corporation), a regulated investment company, or a real estate investment trust which meets the average annual adjusted financial statement income test set forth in Section 59(k) of the Code in one or more taxable years. No opinion will be expressed by Bond Counsel regarding other federal or State of Minnesota tax consequences caused by the receipt or accrual of interest on the Bonds or arising with respect to ownership of the Bonds.

Noncompliance following the issuance of the Bonds with certain requirements of the Code and covenants of the Award Resolution may result in the inclusion of interest on the Bonds in gross income (for federal tax purposes) and taxable net income (for State of Minnesota tax purposes) of the owners thereof. No provision has been made for redemption of the Bonds, or for an increase in the interest rate on the Bonds, in the event that interest on the Bonds becomes subject to United States or State of Minnesota income taxation.

The Code imposes an alternative minimum tax with respect to individuals on alternative minimum taxable income.

The Code provides that in the case of an insurance company subject to the tax imposed by Section 831 of the Code, the amount which otherwise would be taken into account as "losses incurred" under Section 832(b)(5) shall be reduced by an amount equal to the applicable percentage of the interest on the Bonds that is received or accrued during the taxable year.

Interest on the Bonds may be included in the income of a foreign corporation for purposes of the branch profits tax imposed by Section 884 of the Code. Under certain circumstances, interest on the Bonds may be subject to the tax on "excess net passive income" of Subchapter S corporations imposed by Section 1375 of the Code.

The above is not a comprehensive list of all federal tax consequences which may arise from the receipt of interest on the Bonds. The receipt of interest on the Bonds may otherwise affect the federal or State income tax liability of the recipient based on the particular taxes to which the recipient is subject and the particular tax status of other items or deductions. Bond Counsel expresses no opinion regarding any such consequences. All prospective purchasers of the Bonds are advised to consult their own tax advisors as to the tax consequences of, or tax considerations for, purchasing or holding the Bonds.

Legislative proposals

Bond Counsel's opinion is given as of its date and Bond Counsel assumes no obligation to update, revise, or supplement such opinion to reflect any changes in facts or circumstances or any changes in law that may hereafter occur. Proposals are regularly introduced in both the United States House of Representatives and the United States Senate that, if enacted, could alter or affect the tax-exempt status on municipal bonds. For example, legislation has been proposed that would, among other things, limit the amount of exclusions (including tax-exempt interest) or deductions that certain higher-income taxpayers could use to reduce their tax liability. The likelihood of adoption of this or any other such legislative proposal relating to tax-exempt bonds cannot be reliably predicted. If enacted into law, current or future proposals may have a prospective or retroactive effect and could affect the value or marketability of tax-exempt bonds (including the Bonds). Prospective purchasers of the Bonds should consult their own tax advisors regarding the impact of any such change in law.

QUALIFIED TAX-EXEMPT OBLIGATIONS

The Bonds shall be designated as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Code relating to the ability of financial institutions to deduct from income for federal income tax purposes, interest expense that is allocable to carrying and acquiring tax-exempt obligations.

The Auditor also has not performed any procedures relating to this Preliminary Official Statement.

RISK FACTORS

The following is a description of possible risks to holders of the Bonds without weighting as to probability. This description of risks is not intended to be all-inclusive, and there may be other risks not now perceived or listed here.

Taxes: The Bonds will be general obligations of the District, the ultimate payment of which rests in the District's ability to levy and collect sufficient taxes to pay debt service should other revenue (state aids) be insufficient. In the event of delayed billing, collection or distribution of property taxes, sufficient funds may not be available to the District in time to pay debt service when due.

State Actions: Many elements of local government finance, including the issuance of debt and the levy of property taxes, are controlled by state government. Future actions of the state may affect the overall financial condition of the District, the taxable value of property within the District, and the ability of the District to levy and collect property taxes.

Future Changes in Law: Various State and federal laws, regulations and constitutional provisions apply to the District and to the Bonds. The District can give no assurance that there will not be a change in or interpretation of any such applicable laws, regulations and provisions which would have a material effect on the District or the taxing authority of the District.

Ratings; Interest Rates: In the future, the District's credit rating may be reduced or withdrawn, or interest rates for this type of obligation may rise generally, either possibility resulting in a reduction in the value of the Bonds for resale prior to maturity.

Tax Exemption: If the federal government or the State of Minnesota taxes all or a portion of the interest on municipal obligations, directly or indirectly, or if there is a change in federal or state tax policy, the value of the Bonds may fall for purposes of resale. Noncompliance following the issuance of the Bonds with certain requirements of the Code and covenants of the Award Resolution may result in the inclusion of interest on the Bonds in gross income of the recipient for United States income tax purposes or in taxable net income of individuals, estates or trusts for State of Minnesota income tax purposes. No provision has been made for redemption of the Bonds, or for an increase in the interest rate on the Bonds, in the event that interest on the Bonds becomes subject to federal or State of Minnesota income taxation, retroactive to the date of issuance.

Continuing Disclosure: A failure by the District to comply with the Disclosure Undertaking for continuing disclosure (see "CONTINUING DISCLOSURE") will not constitute an event of default on the Bonds. Any such failure must be reported in accordance with the Rule and must be considered by any broker, dealer, or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

Levy Limits: Minnesota school district tax levies for most purposes are subject to statutory limitations. No limit, however, is placed on the debt service levy, and districts are required to levy 105% of actual principal and interest requirements to allow for delinquencies. School districts receive a basic revenue amount per pupil unit from aid and levy proceeds in a variety of categorical state aids. They are also allowed to certify additional levies within limits for certain specified purposes. The State Department of Education and the applicable County Auditors review the levies of each school district to determine compliance with state levy limits.

State Economy; State Aids: State of Minnesota cash flow problems could affect local governments and possibly increase property taxes.

Book-Entry-Only System: The timely credit of payments for principal and interest on the Bonds to the accounts of the Beneficial Owners of the Bonds may be delayed due to the customary practices, standing instructions or for other unknown reasons by DTC participants or indirect participants. Since the notice of redemption or other notices to holders of these obligations will be delivered by the District to DTC only, there may be a delay or failure by DTC, DTC participants or indirect participants to notify the Beneficial Owners of the Bonds.

Economy: A combination of economic, climatic, political or civil disruptions or terrorist actions outside of the control of the District, including loss of major taxpayers or major employers, could affect the local economy and result in reduced tax collections and/or increased demands upon local government. Real or perceived threats to the financial stability of the District may have an adverse effect on the value of the Bonds in the secondary market.

Secondary Market for the Bonds: No assurance can be given that a secondary market will develop for the purchase and sale of the Bonds or, if a secondary market exists, that such Bonds can be sold for any particular price. The underwriters are not obligated to engage in secondary market trading or to repurchase any of the Bonds at the request of the owners thereof. Prices of the Bonds as traded in the secondary market are subject to adjustment upward and downward in response to changes in the credit markets and other prevailing circumstances. No guarantee exists as to the future market value of the Bonds. Such market value could be substantially different from the original purchase price.

Bankruptcy: The rights and remedies of the holders may be limited by and are subject to the provisions of federal bankruptcy laws, to other laws, or equitable principles that may affect the enforcement of creditors' rights, to the exercise of judicial discretion in appropriate cases and to limitations on legal remedies against local governments. The opinion of Bond Counsel to be delivered with respect to the Bonds will be similarly qualified.

Cybersecurity: The District is dependent on electronic information technology systems to deliver services. These systems may contain sensitive information or support critical operational functions which may have value for unauthorized purposes. As a result, the electronic systems and networks may be targets of cyberattack. There can be no assurance that the District will not experience an information technology breach or attack with financial consequences that could have a material adverse impact.

The foregoing is intended only as a summary of certain risk factors attendant to an investment in the Bonds. In order for potential investors to identify risk factors and make an informed investment decision, potential investors should be thoroughly familiar with this entire Preliminary Official Statement and the Appendices hereto.

OVERVIEW

All non-exempt property is subject to taxation by local taxing districts. Exempt real property includes Indian lands, public property, and educational, religious and charitable institutions. Most personal property is exempt from taxation (except investor-owned utility mains, generating plants, etc.).

The valuation of property in Minnesota consists of three elements. (1) The estimated market value is set by city or county assessors. Not less than 20% of all real properties are to be appraised by local assessors each year. (2) The taxable market value is the estimated market value adjusted by all legislative exclusions. (3) The tax capacity (taxable) value of property is determined by class rates set by the State Legislature. The tax capacity rate varies according to the classification of the property. Tax capacity represents a percent of taxable market value.

The property tax rate for a local taxing jurisdiction is determined by dividing the total tax capacity or market value of property within the jurisdiction into the dollars to be raised from the levy. State law determines whether a levy is spread on tax capacity or market value. Major classifications and the percentages by which tax capacity is determined are:

1 According to the Minnesota Department of Revenue, the Assessor's Estimated Market Value (the "AEMV") for the District is about 90.87% of the actual selling prices of property most recently sold in the District. The sales ratio was calculated by comparing the selling prices with the AEMV. Dividing the AEMV of real estate by the sales ratio and adding the AEMV of personal property and utility, railroads and minerals, if any, results in an Economic Market Value ("EMV") for the District of $2,738,917,464.

2 The captured tax increment value shown above represents the captured net tax capacity of tax increment financing districts in the District.

1 Net Tax Capacity includes tax increment values.

2 Taxable Net Tax Capacity does not include tax increment values.

3 In 2023, the estimated median commercial and industrial sales ratio used to equalize utility values in Meeker County dropped below 90% to 70.83%, thereby resulting in lower valuations for this classification of property. Depreciation may also have affected the decrease in valuations.

DEBT

DIRECT DEBT[1]

General Obligation Debt (see schedule following)

Total G.O. debt secured by taxes and state aids[2] (includes the Bonds)*	$66,350,000

*Preliminary, subject to change.

Other Obligations - Cooperative District/Joint Governmental Obligations

The District is a member of the Southwest West Central Service Cooperative (SWWC). On September 23, 2020, the City of Monetvideo Economic Development Authority issued $5,295,000 Lease Revenue Refunding Bonds (Southwest West Central Service Cooperative, Lease with Option to Purchase Project), Series 2020A. The District has a contractual obligation on a Level 4 Special Education space with SWWC. The District's share of the total 2024-25 payments on the lease payments is $35,487, which is approximately 4.46% of the debt service payment.

DEBT PAYMENT HISTORY

The District has no record of default in the payment of principal and interest on its debt.

FUTURE FINANCING

The District has no current plans for additional financing in the next 12 months.

STATE AID FOR DEBT SERVICE

The Minnesota Debt Service Equalization program provides state aid to finance a portion of the principal and interest payments on voter approved school building bonds. Bonds and Certificates that are not eligible for the program include all alternative facilities bonds, facilities maintenance bonds, capital facilities bonds, OPEB bonds, building bonds with relatively short maturities, and Certificates of Participation (COPs).

Under the Debt Service Equalization Formula (the Formula) adopted by the 2001 Minnesota State Legislature, each school district is responsible for the amount of its qualifying annual debt service which is equal to 15.74% of its Adjusted Net Tax Capacity (ANTC). The District does not currently qualify for debt service equalization aid.

---

1 Outstanding debt is as of the dated date of the Bonds.

2 Based upon the Long Term Facilities Maintenance Revenue formula, agricultural land valuation and current statistics, the District anticipates a portion of this debt will be paid by the State of Minnesota.

In addition to debt service equalization aid, some school districts will qualify for state Long Term Facilities Maintenance Aid to finance a portion of the payments on Alternative Facilities Bonds and Facilities Maintenance Bonds, pursuant to the Long Term Facilities Maintenance Revenue program approved by the State in 2015. If any aid is received, it is deposited into the school district's debt service fund and must be used for payments on the bonds; any payment of state aid into the debt service fund causes a reduction in the tax levy for Alternative Facilities Bonds and Facilities Maintenance Bonds. The amount of aid received in the debt service fund will vary each year, depending on a number of factors. Although the District expects to receive some Long Term Facilities Maintenance Aid in its debt service fund, Ehlers has not attempted to estimate the portion of debt service payments that would be financed by state aid.

Some school districts will also receive aid for debt service payments through the state School Building Bond Agricultural Credit, which is paid to school districts to offset a portion of certain bond levies (Minnesota Statutes, Section 273.1387). For taxes payable in 2023, and thereafter, the reimbursement percentage for each qualifying property is 70% of the property's eligible net tax capacity multiplied by the school debt tax rate determined under Minnesota Statutes, Section 275.08, subdivision 1b. The school building bond agricultural credit applies to farmland, excluding the house, garage and one acre, and to rural vacant land and managed forest land. The amount of agricultural credit received in the debt service fund for taxes payable 2023 is approximately 10.64% of total annual debt service levies, based on the District's 2022/23 qualifying agricultural land valuation.

BONDED DEBT LIMIT

Minnesota Statutes, Section 475.53, subdivision 4, presently limits the "net debt" of a school district to 15% of the estimated market value of all taxable property situated within its corporate limits. The estimated market value of property within a district, on which its debt limit is based, is (a) the value certified by the county auditors, or (b) this value divided by the ratio certified by the commissioner of revenue, whichever results in a higher value. The current debt limit of the District is computed as follows:

2022/23 Economic Market Value	$2,738,917,464
Multiply by 15%	0.15
Statutory Debt Limit	$410,837,620
Less: Long-Term Debt Outstanding Being Paid Solely from Taxes (includes the Bonds)*	(66,350,000)
Unused Debt Limit*	$344,487,620

LITIGATION

There is no litigation threatened or pending questioning the organization or boundaries of the District or the right of any of its officers to their respective offices or in any manner questioning their rights and power to execute and deliver the Bonds or otherwise questioning the validity of the Bonds.

MUNICIPAL BANKRUPTCY

Municipalities are prohibited from filing for bankruptcy under Chapter 11 (reorganization) or Chapter 7 (liquidation) of the U.S. Bankruptcy Code (11 U.S.C. §§ 101-1532) (the "Bankruptcy Code"). Instead, the Bankruptcy Code permits municipalities to file a petition under Chapter 9 of the Bankruptcy Code, but only if certain requirements are met. These requirements include that the municipality must be "specifically authorized" under State law to file for relief under Chapter 9. For these purposes, "State law" may include, without limitation, statutes of general applicability enacted by the State legislature, special legislation applicable to a particular municipality, and/or executive orders issued by an appropriate officer of the State's executive branch.

Currently there is no statutory authority for Minnesota school districts to file for bankruptcy relief under Chapter 9 of the Bankruptcy Code.

Nevertheless, there can be no assurance (a) that State law will not change in the future while the Bonds are outstanding; or (b) even absent such a change in State law, that an executive order or other executive action could not effectively authorize the District to file for relief under Chapter 9; or (c) whether it would still be eligible for voluntary or involuntary relief under Chapters of the Bankruptcy Code other than Chapter 9 or under similar federal or state law or equitable proceeding regarding insolvency or providing for protection from creditors. Such action could impact the rights of holders of the Bonds. Such modifications could be adverse to holders of the Bonds and there could ultimately be no assurance that holders of the Bonds would be paid in full or in part on the Bonds.

[1] The 2023-24 revised budget was adopted on February 26, 2024. The budget includes a one-time expenditure of $350,000 for technology/capital projects from the restricted fund balance. Actual enrollment for the current school year may be higher than the estimates used for the budget, so this will cause an increase in revenue above the budgeted amounts. Active expense management is also underway in an effort to reduce operating expenditures by June 30. Taking these factors into account, along with the District's conservative budgeting practices, the District estimates that the unassigned fund balance will break-even during the 2023-2024 fiscal year.

INDEPENDENT AUDITOR'S REPORT

To The Board of Education
Independent School District #423
Hutchinson, Minnesota

Report on the Audit Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #423, Hutchinson, Minnesota, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #423, Hutchinson, Minnesota, as of June 30, 2023, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* , issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements (Cont'd)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

Exercise professional judgment and maintain professional skepticism throughout the audit.

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Proportionate Share of Net Pension Liability, the Schedule of Proportionate Share Employer Contributions, the Schedule of Changes in the District's Total Pension Liability, the Schedule of Changes in the District's Total OPEB Liability, and Notes to Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Report on Partial Comparative Information

We have previously audited the District's 2022 financial statements, and we expressed unmodified audit opinions on those audited financial statements in our report dated November 14, 2022. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived. Refer to Note 18 of the Notes to the Financial Statements for additional information regarding the prior year partial comparative information.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Elected Officials and Administration page and the UFARS Compliance Table but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated December 11, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Other Reporting Required by *Manual for Acitivity Fund Accounting*

In accordance with Minnesota Statutes, we have also issued our report dated December 11, 2023, on our consideration of the District's compliance with provisions of the *Manual for Activity Fund Accounting* issued by the Minnesota Department of Education, pursuant to Minnesota Statutes §123B.49. The purpose of that report is to determine if the District has complied with Minnesota laws and regulations. That report is an integral part of an audit performed in the State of Minnesota.

REQUIRED SUPPLEMENTARY INFORMATION

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023

This section of Independent School District No. 423, Hutchinson Public Schools' annual financial report presents the Management's Discussion and Analysis of the District's financial performance during the fiscal year that ended on June 30, 2023. Please read it in conjunction with the District's financial statements, which immediately follow this section.

The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999.

Financial Highlights

- Net position of the District increased by $7,830,273.
- The District maintained positive fund balances in all funds.
- The District showed an increase in the General Fund of $158,463.

Overview of the Financial Statements

The financial section of the annual report consists of four parts – Independent Auditor's Report; required supplementary information, which includes the management's discussion and analysis (this section); the basic financial statements; and the supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the government-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short-term* as well as what remains for future spending.
- The *proprietary funds statements* offer *short* and *long-term* financial information about the activities the District operates like businesses.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

Government-wide Statements (Cont'd)

The two government-wide statements report the District’s net position and how they have changed. Net position – the difference between the District’s assets, deferred outflows of resources, liabilities and deferred inflows of resources – is one way to measure the District’s financial health or position.

- Over time, increases or decreases in the District’s net position are an indicator of whether its financial position is improving or deteriorating, respectively.

- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District’s property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District’s activities are shown in one category:

- **Governmental activities**: The District’s basic services are included here, such as regular and special education, transportation, administration, food service, and community education. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District’s funds – focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific resources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.

- The District establishes other funds to control and manage money for particular purposes (e.g. repaying its long-term debts) or to show that it is properly using certain revenues (e.g. federal grants).

The District has two kinds of funds:

- **Governmental Funds**: Most of the District’s basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds statements that explains the relationship (or differences) between them.

- **Proprietary Funds**: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The District uses an internal service fund to report activities that provide supplies and services for the District’s other programs and activities. The District currently has two internal service funds, one for self-insurance health plan benefits and one for self-insurance dental plan benefits.

Fund Financial Statements (Cont'd)

Fund balances must be classified as part of the Governmental Accounting Standards Board (GASB) Statement No. 54. All fund balances must be reported in one of the following categories:

- Nonspendable – cannot be spent because they are typically not in a spendable form or required to be maintained intact, such as inventory or prepaid balances.

- Restricted – constraints are placed on the use of the resources either externally by creditors or through constitutional provisions. The Minnesota Department of Education (MDE) has re-titled statutorily required reserved accounts as “Restricted/Reserved”.

- Committed – amounts that are designated by formal action of the District’s School Board.

- Assigned – amounts constrained to be used for a specific purpose by the School Board or an official that has been delegated authority to assign amounts. This only applies to the General Fund.

- Unassigned – amounts only in the General Fund that are available to meet current and future years’ expenditures. Any negative fund balance in the Food Service Fund, Community Education Fund, Construction Fund and Debt Service Fund would also need to be accounted for here.

Net Position

The District’s combined net position was $21,341,013 on June 30, 2023. This was an increase of 57.96% (See Table A-1).

Change in Net Position

The increase in net position is due primarily to the amortization of deferred outflows of resources and deferred inflows of resources for the year ended June 30, 2023. These changes stem from significant decreases in deferred inflows of resources.

The following Table A-2 represents the change in net position of the District. The overall change in net position is an increase of 57.96% relative to the beginning balance.

The total cost of all programs and services for the District was $36,616,556. Instruction and Support Services and Pupil Support Services accounted for approximately 61.92% (down 6.19% year-over-year) of all costs (see Figure A-2.) Sites and Buildings made up 15.42% (up 4.65% year-over-year) of the costs while Administration costs accounted for 3.95% (down 0.07% year-over-year) of total costs.

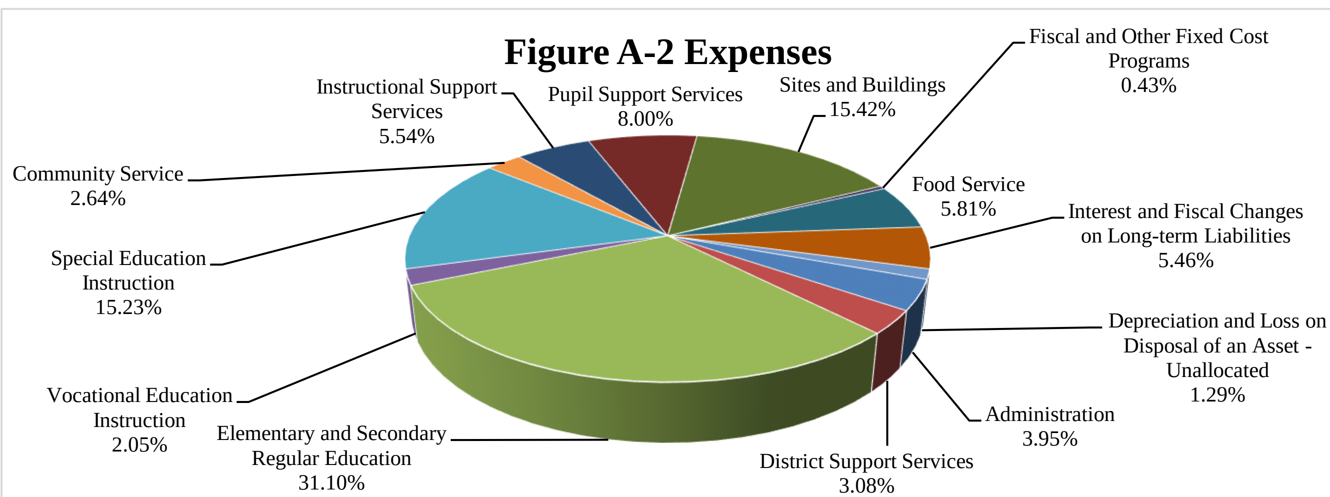

Table A-3 presents the total cost of governmental activities as well as the net cost of those activities. The net cost represents total cost less program revenues applicable to each category.

Net Cost of Governmental Activities

The cost for all governmental activities for year ended June 30, 2023 was $36,616,556.

- Some of the cost was paid by users of the District's programs $1,321,528.
- The federal and state governments subsidized certain programs with grants and contributions $12,398,790.
- Most of the District's costs, however, were paid by property taxes in the amount of $8,677,935 and general education aids in the amount of $21,301,020. Other revenues and investment earnings contributed $747,556 toward the costs.

Financial Analysis of the District's Funds

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of $20,106,230. This is a decrease of $8,343,049 from the June 30, 2022 combined fund balance total, mainly due to construction expenditures drawn from bond proceeds.

General Fund

The General Fund includes the primary operations of the District in providing educational services to students from pre-kindergarten through grade 12, including transportation services and capital outlay expenditures.

General Fund Revenues are outlined in Table A-4 below:

Table A-4
Summary of General Fund Revenues

	2023	2022	Amount of Increase (Decrease)	Total Percentage Change 2022-2023

Property Taxes	$ 4,380,448	$ 4,685,618	$ (305,170)	-6.51%
Other	1,251,143	741,554	509,589	68.72%
Revenue from State Sources	27,914,708	27,292,536	622,172	2.28%
Revenue from Federal Sources	2,562,461	3,171,669	(609,208)	-19.21%
Sales and Other Conversions of Assets	3,594	5,561	(1,967)	-35.37%
Total Revenues	$ 36,112,354	$ 35,896,938	$ 215,416	0.60%

Total General Fund Revenues increased by $215,416 or .6% from the previous year. During the 2022-2023 school year the District recognized a property tax shift as required by accounting standards. This shift has not yet been repaid by the State of Minnesota, so we are seeing a transition from Other to State Sources since this shift now becomes a receivable for the District.

General Fund Expenditures are itemized in Table A-5:

Table A-5
Summary of General Fund Expenditures

	2023	2022	Amount of Increase (Decrease)	Total Percentage Change 2022-2023
Salaries	$ 20,706,219	$ 20,724,502	$ (18,283)	-0.09%

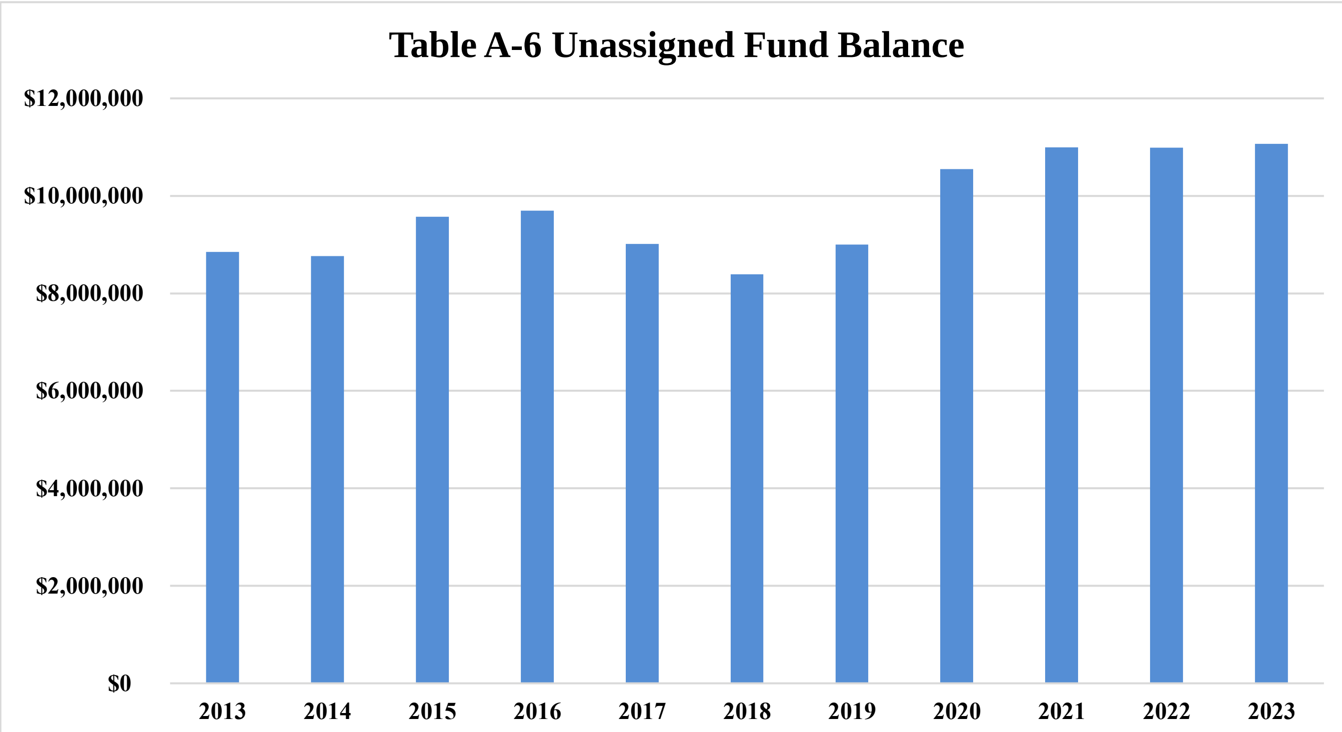
Other Expenditures	2,166,867	2,409,340	(242,473)	-10.06%
Total Expenditures	$ 35,972,176	$ 35,706,013	$ 266,163	0.75%

Total General Fund Expenditures increased by $266,163. The majority of this change was in the area of supplies, materials and equipment.



The General Fund Unassigned Fund Balance, which includes Transportation, increased by $80,706 for a total of $11,066,036 at June 30, 2023.

Table A-6 above shows the overall financial health of the General Fund. Unassigned Fund Balance is approximately 30.76 percent over expenditures or approximately seventeen weeks of operation.

General Fund Budgetary Highlights

The original budget was adopted as required by state statute prior to July 1, 2023. Many budgetary assumptions and projections of enrollment data were made during the preliminary budget cycle. During the school year, the District continued to monitor enrollment data and other budgetary assumptions to recommend budget changes as more finalized information became available.

The General Fund budget originally predicted a decrease of $1,417,390 in fund balance while the final budget showed a decrease of $927,949. The projected budget deficit decreased during the year due to increased clarity related to federal pandemic-related program revenue and the timing associated with large facilities projects. The General Fund actual change in fund balance was an increase of $158,463. This better-than-expected result is driven by management’s decision to reduce its operating budget throughout the year and the timing of state and federal pandemic-related program revenues as well as shifting timelines associated with large facilities projects.

Hutchinson Public Schools maintains separate fund accounting for Transportation and Capital Expenditures. However, when reporting to the state and in the financial statements, Transportation and Capital Expenditures are reported as part of the General Fund.

Building Construction Fund Budgetary Highlights

Total revenues for the Building Construction Fund for the 2022-2023 year were $157,956 while expenditures were $8,680,484. As of June 30, 2023, the fund balance for the Building Construction Fund was decreased by $8,522,528 and the project was still in progress at year end.

Debt Service Fund Budgetary Highlights

Total revenues for the Debt Service Fund for the 2022-2023 year were $4,866,491 while expenditures were $4,727,839. As of June 30, 2023, the fund balance for Debt Service Fund was increased by $138,652.

Food Service Fund Budgetary Highlights

The Food Service Fund revenue for 2022-2023 totaled $2,028,869 while expenditures totaled $2,240,875. As of June 30, 2023, the fund balance for the Food Service Fund decreased by $212,006. This decrease reflects the decrease of funding for the Summer Food Service Program and child nutrition program compliance waivers related to the pandemic as well as a decrease of income from a la carte items due to free school lunches. Equipment upgrades also contributed to the decrease.

Community Service Fund Budgetary Highlights

Total revenues for the Community Service Fund for the 2022-2023 year were $1,159,595 while expenditures were $1,065,225. As of June 30, 2023, the fund balance for Community Service Fund was increased by $94,370. Due to early childhood scholarships from the State of Minnesota, the District maintained early childhood programs where facility space and tuition receipts permitted. Early childhood family education programs expenses were less than anticipated due to labor shortages and less program demand by patrons.

Capital Assets and Debt Administration

At June 30, 2023, the District had just over $119.2 million invested in capital assets. (Detailed information on the capital assets can be found in Note 6 to the financial statements.) Most of this investment is in the District's buildings and land/land improvements while the increase year-over-year related to a decrease in construction in progress for elementary school buildings. Depreciation expense for the year was $2,299,870.

Long-Term Debt

At year-end the District has $69,148,239 of bonded indebtedness, $189,936 of compensated absences, $25,677,671 of net pension liability required for unfunded PERA, TRA, and the District's supplemental pension plan and $3,438,039 of other postemployment benefits liabilities. The bonded debt is scheduled to be repaid in the next twenty years. The District has committed $55,837 of the General Fund Balance for the vested severance payments.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing condition that could significantly affect its financial health in the future:

With the exception of the voter-approved excess operating referendum, the District is dependent on the State of Minnesota for the majority of its revenue stream. Any changes in funding by the State of Minnesota will significantly affect the future of the School District.

As in recent past years, the State is shifting part of the funding obligated to the Hutchinson School District from one year to the next. These withheld funds are being used to help the State meet its cash flow needs. The State has not yet repaid the tax shift from the prior fiscal year but has reduced the amount that it withholds. The withholding of these funds affects the cash flow and investments of the school district. The school district has been able to maintain sufficient cash flow to meet its obligations without borrowing operating funds. School district funds that would otherwise be invested are now being used for cash flow due to the shift of State funding that has not yet been repaid. Any funds that are invested are receiving minimal return due to the economic conditions of the nation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Independent School District #423 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The GASB pronouncements are recognized as accounting principles generally accepted in the United States of America. The more significant of the government's accounting policies are described below.

A. REPORTING ENTITY

The Independent School District #423 Board of Education ("District") is the basic level of government which has the financial accountability and control over all activities related to the public school education for the Hutchinson Public School District. The District receives funding from local, state, and federal sources and must comply with the expenditure requirements of these funding source entities.

The financial statements present the District and its component units. The District includes all funds, organizations, institutions, agencies, departments and offices that are not legally separate from such. Component units are legally separate entities for which the District is financially accountable, or for which the exclusion of the component unit would render the financial statements of the District misleading.

The criteria used to determine if the District is financially accountable for a component unit includes whether or not 1) the District appoints the voting majority of the potential component unit's governing body and is able to impose its will on the potential component unit or is in a relationship of financial benefit or burden with the potential component unit, or 2) the potential component unit is fiscally dependent on and there is a potential for the potential component unit to provide specific financial benefits to, or impose specific financial burdens on, the District.

As a result of applying the component unit definition criteria above, it has been determined the District has no component units.

Extracurricular student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside school hours. The School Board has a fiduciary responsibility in establishing general policies and ensuring that appropriate financial records are maintained for student activities. In addition, these accounts of the District are under the School Board's control. The activity of the student activity accounts is accounted for in the General Fund.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District except for fiduciary funds. Fiduciary funds are only reported at the fund financial statement level.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Cont'd)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Elimination of all charges would distort the direct costs and program revenue reported for the various functions concerned.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Internal Service Fund is presented in the proprietary fund financial statements. Because the principal user of the internal services is the District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental activities column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges to customers for services. Operating expenses for the internal service fund include the cost of services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing or related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting, in which revenues are recognized when they become measurable and available. Revenues are considered to be measurable when the amount of the transaction can be determined and available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Cont'd)

Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and accounting principles generally accepted in the United States of America. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Food service sales, community education tuition, and other miscellaneous revenue (except interest earnings) are recorded as revenues when received because they are generally not measurable until then. Interest earnings are recorded when earned because they are measurable and available. A six-month availability period is generally used for other fund revenue.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. The District does not use encumbrances for either budgeting or financial reporting purposes.

It is generally the District's policy to use restricted resources first, then unrestricted resources as they are needed when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Description of Funds

The existence of the various District funds has been established by the State of Minnesota, Department of Education. The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. A description of the funds included in this report is as follows:

Major Governmental Funds:

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. It includes the general operations and pupil transportation activities of the District, as well as the capital related activities such as maintenance of facilities, equipment purchases, health and safety projects, and disabled accessibility projects.

The Building Construction Capital Projects Fund accounts for financial resources used for the acquisition or construction of major capital facilities funded by the sale of bonds.

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

Nonmajor Governmental Funds:

The Food Service Special Revenue Fund accounts for all activities associated with the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities.

The Community Service Special Revenue Fund accounts for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, veterans, adult or early childhood programs or other similar services.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Cont'd)

Proprietary Fund:
The Internal Service Fund accounts for financing of goods and services provided by one department to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The Dental Plan Fund and the Health and Flex Service Fund are accounted for as Internal Service Funds. The Dental Plan Fund accounts for the District's dental self-insurance program. The District began commercial health insurance on September 1, 2008. The Health and Flex Service Fund remains open as the District may resume a self-insured health insurance plan.

D. BUDGETS AND BUDGETARY ACCOUNTING

Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. Each June, the School Board adopts an annual budget for the following fiscal year for the General, Food Service, Community Service, Capital Project Funds and Debt Service Funds. The approved budget is published in summary form in the District's legal newspaper by November 30 of each year. Reported budget amounts represent the amended budget as adopted by the School Board. Legal budgetary control is at the fund level.

Procedurally, in establishing the budgetary data reflected in these financial statements, the Director of Business and Finance submits to the School Board prior to July 1, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means to finance them. The budget is legally enacted by School Board action. Revisions to budgeted amounts must be approved by the School Board.

Total fund expenditures in excess of the budget require approval of the School Board. Spending control is established by the amount of expenditures budgeted for the fund, but management control is exercised at line item levels.

Unencumbered expenditure appropriations lapse at year-end. Encumbrances are not recorded.

Budget provisions for the Debt Service Fund are set by state law governing required debt service levels.

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE

Cash and Investments:
The District's cash and cash equivalents are considered to be cash on hand, deposits and highly liquid debt instruments purchased with original maturities of three months or less from the date of acquisition.

The District may invest in the following types of investments as authorized by Minn. Stat. §§118A.04 and 118A.05:

(1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. §118A.04, subd. 6;

Cash and Investments: (Cont'd)

(2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;

(3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;

(4) time deposits that are fully insured by the Federal Deposit Insurance Corporation or bankers acceptances of United States bank;

(5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by at least two nationally recognized rating agencies and matures in 270 days or less; and

(6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Cash and investments consist of demand deposit accounts, negotiable certificates of deposit and investments in external investment pools.

Cash balances from all funds of the District are pooled and invested, to the extent available, in allowable cash management accounts. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

The District invests in external investment pools, the Minnesota School District Liquid Asset Fund and MN Trust, which are created under a joint powers agreement pursuant to Minn. Stat. §471.59. The Minnesota School District Liquid Asset Fund and MN Trust are not registered with the Securities Exchange Commission (SEC), but satisfy the requirements of Rule 2a-7 prescribed by the SEC pursuant to the Investment Company Act of 1940 (17 CFR §270.2a-7), as amended. The investment in the pools are measured at the net asset value per share provided by the pool.

For purposes of the Statement of Cash Flows, the District considers cash in bank and all highly liquid instruments (including restricted assets) to be cash and cash equivalents in its proprietary funds.

The District has an investment policy in place that addresses interest rate risk, credit risk, concentration of credit risk and custodial credit risk as follows:

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of bank failure, the District's deposits may not be returned to it. Minnesota Statutes require all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Cash and Investments: (Cont'd)

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations of a state or local government rated "A" or better and revenue obligations of a state or local government rated "AA" or better; unrated general obligation securities of the District; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The District does not have a policy that further limits its collateral choices.

Custodial Credit Risk - Investments. For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy on custodial credit risk states securities shall be held in third party safekeeping by an institution designated as custodial agent. The institution or dealer shall issue a safekeeping receipt to the District listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information related to the securities held.

Interest Rate Risk. This is the risk that the market value of securities will fall due to the changes in market interest rates. The District's policy states investment maturities shall be scheduled to coincide with projected District cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term and long-term investments shall be timed according to anticipated need. Within these parameters, portfolio maturities shall be staggered to avoid undue concentration of assets and a specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.

Credit Risk. This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. State law limits certain investments to the top two ratings issued by the rating organizations. The District's investment policy states it will comply with Minnesota Statutes Chapter 118A.

Concentration Risk. This is the risk of loss attributed to the magnitude of an investment in a single issuer. The District's investment policy states the District shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation of inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Accounts Receivable:
Accounts receivable represents amounts receivable from individuals, firms, and corporations for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary.

Current Property Taxes Receivable:
Current property taxes receivable represent current real and personal property tax levies, certified the previous December and collectible in the current calendar year, which have not been received by the District.

Delinquent Property Taxes Receivable:
Delinquent property taxes receivable represent taxes collectible in the years 2016 to 2022 that remain uncollected at June 30, 2023. They are equally offset by a deferred inflow of resources amount in the governmental fund financial statements.

Prepaid Items:
Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments. Prepaid items are reported using the consumption method and are recorded as an expense or expenditure at the time of consumption.

Inventory:
Inventories are recorded using the consumption method of accounting and consist of paper, purchased food and supplies. Food, paper and supply purchases are recorded at invoice cost, computed on a first-in, first-out method.

Capital Assets:
Tangible and intangible capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated acquisition value at the date of donation. The District maintains a threshold level of $5,000 for capitalizing tangible and intangible capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Tangible and intangible capital assets are recorded in the government-wide financial statements, but are not reported in the governmental fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

The District does not possess any material amounts of intangible capital assets.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Deferred Outflows of Resources:
In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future reporting period. During that future period, it will be recognized as an outflow of resources (expense/expenditure). The District has items that qualify for reporting in this category on the government-wide Statement of Net Position which are related to pensions and other post-employment benefits.

Unearned Revenue
Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and certain other payments received before eligibility requirements are met are also recorded as unearned revenue.

Long-Term Obligations:
In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt issuance received, are reported as debt service expenditures.

Compensated Absences:
The liability for compensated absences reported in the financial statements consists of unpaid, accumulated vacation and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. The liability for compensated absences is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are accrued when incurred in the government-wide financial statements. The government-wide Statement of Net Position reports both current and long-term portions of compensated absences using full accrual accounting. The current portion consists of an amount based on expected or known retirements coming in the next fiscal year. The long-term portion consists of the remaining amount of vacation and total vested sick leave.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Compensated Absences: (Cont'd)

Vacation Pay:

Certain employees earn annual vacation pay at rates dependent upon each employee group labor contract. The District compensates employees for unused vacation upon termination of employment. Unpaid vacation pay totaling $150,791 is recorded in the financial statements as a component of compensated absences.

Sick Pay:

Certain employees are entitled to paid sick leave at various rates for each month of full-time service. Employees are not compensated for unused sick leave upon termination of employment, except as used in severance pay calculations. Sick pay is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements. Unpaid sick pay totaling $39,145 is recorded in the financial statements as a component of compensated absences.

Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA), the Teachers Retirement Association (TRA) and the District's supplemental pension plan and additions to/deductions from PERA's, TRA's and the District's supplemental pension plan's fiduciary net position have been determined on the same basis as they are reported by PERA, TRA and the District's supplemental pension plan. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District participates in various pension plans; total pension expense for the fiscal year ended was ($4,012,832). The components of pension expense are noted in the plan summaries.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. This direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association in 2015.

Other Postemployment Benefits:

Under the terms of current and previous employment contracts, when certain qualified employees retire with certain age and service requirements, the District provides life and health insurance benefits which would cease when such employees attain the age of 65 or is eligible for Medicare. All premiums are funded on a pay-as-you-go basis.

Deferred Inflows of Resources:

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. Deferred inflows of resources represents an acquisition of net position that applies to a future reporting period. During that future period, it will be recognized as an inflow of resources (revenue). The District has items that qualify for reporting in this category on both the government-wide Statement of Net Position and the governmental fund financial statements related to property taxes, pensions and other post employment benefits.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Property Taxes Levied for Subsequent Years:
Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the state which will be recognized as revenue in the next fiscal year beginning July 1, 2023, are included in this account to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

Fund Balance:
In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources reported in governmental funds. These classifications are as follows:

Nonspendable - consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact, such as prepaid items.

Restricted - consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - consists of amounts that are constrained for specific purposes that are internally imposed by formal action of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. These constraints are established by Resolution of the Board of Education.

Assigned - consists of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board Policy, the Superintendent and Director of Business and Finance are authorized to establish assignments of fund balance.

Unassigned - is the residual classification for the General Fund and also reflects negative residual amounts in the remaining governmental funds.

The District requires restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Board of Education has formally adopted a fund balance policy for the General Fund. The District's policy is to strive to maintain a minimum unassigned fund balance of 14% of the annual budget.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

E. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, NET POSITION AND FUND BALANCE (Cont'd)

Net Position:
Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources in the government-wide and proprietary fund financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide and proprietary fund financial statements when there are limitations on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position consists of all other net position that does not meet the definition of restricted or net investment in capital assets.

F. REVENUES AND EXPENDITURES

Revenues:
Property tax levies are established by the Board of Education in December each year and are certified to the County for collection in the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The County spreads all levies over taxable property. Such taxes become a lien on January 1. Taxes are due on May 15 and October 15. The County generally remits taxes to the District at periodic intervals as they are collected. A portion of property taxes levied is paid through various state tax credits which are included in revenue from state sources in the governmental fund financial statements.

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as deferred inflow of resources (property taxes levied for subsequent year's expenditures). The majority of District revenue in the General Fund (and to a lesser extent in the District's Community Service Special Revenue Fund) is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift".

In accordance with State law, the current tax shift consists of an amount equal to 31% of the District's 2000 Pay 2001 operating referendum which is frozen at $159,249 for the District. State law is not requiring recognition of the current operating referendum and all other levies other than Career Technical and Reemployment Insurance. Career Technical and Reemployment Insurance tax levies are recognized early based on statutory requirements in the amounts of $166,970 and ($37,000), respectively.

Tax levies from prior years that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is reported as a deferred inflow of resources at the fund level because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the State which will be recognized as revenue in the next fiscal year beginning July 1, 2023, are included in Property Taxes Levied for Subsequent Year to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

Expenditures:
Expenditure recognition for governmental fund types is limited to amounts represented by current liabilities. Long-term liabilities are not recognized as governmental fund expenditures or fund liabilities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

G. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflow of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. PRIOR YEAR INFORMATION

The basic financial statements include certain prior-year partial comparative information in total but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the government's financial statements for year ended June 30, 2022, from which partial information was derived.

Fund Equity:
Certain portions of fund balance are restricted based on state requirements to track special program funding, to provide for funding on certain long-term liabilities, or as required by other outside parties. The following is a summary of the potential restricted fund balances for the governmental funds:

A. RESTRICTED FOR STUDENT ACTIVITIES

The fund balance restriction represents unspent resources available for student activity expenditures.

B. RESTRICTED FOR OPERATING CAPITAL

The District levies taxes and receives state aid to be used for the purchase of equipment, books and vehicles and to purchase, rent, improve, and repair school facilities as allowed by state statute. The cumulative excess of such revenues over equipment and facilities expenditures is reported as a restriction of fund balance in the General Fund.

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE

A. PLAN DESCRIPTION

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA) and Teachers Retirement Association (TRA). PERA’s and TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's and TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan (GERP; General Employees Plan; accounted for in the General Employees Fund):
The General Employees Retirement Plan covers certain full time and part-time employees of the District. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Teachers Retirement Association (TRA):
The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

Educators employed in Minnesota’s public elementary and secondary school, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota State colleges and universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through the Define Contribution Plan (DCR) administered by the State of Minnesota.

B. BENEFITS PROVIDED

GERP Benefits:
PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits are based on a member’s highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% for each of the first 10 years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE (Cont'd)

B. BENEFITS PROVIDED (Cont'd)

GERP Benefits: (Cont'd)
Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

TRA Benefits:
TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits:

Tier I	Step Rate Formula	Percentage
Basic	1st ten years of service	2.2% per year
	All years after	2.7% per year
Coordinated	1st ten years if service years are up to July 1, 2006	1.2% per year
	1st ten years if service years are July 1, 2006 or after	1.4% per year
	All other years of service if service years are up to July 1, 2006	1.7% per year
	All other years of service if service years are July 1, 2006 or after	1.9% per year

With these provisions:

a. Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.

b. 3% per year early retirement reduction factors for all years under normal retirement age.

c. Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE (Cont'd)

B. BENEFITS PROVIDED (Cont'd)

TRA Benefits: (Cont'd)

-or-

Tier II Benefits:

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated members and 2.7 percent per year for basic members is applied. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated members and 2.7 percent per year for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

C. CONTRIBUTIONS

GERP Contributions:
Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2022 and the District was required to contribute 7.50 percent for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2022 were $443,138. The District's contributions were equal to the required contributions as set by state statute.

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE (Cont'd)

C. CONTRIBUTIONS (Cont'd)

TRA Contributions:
Per *Minnesota Statutes,* Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year ended June 30, 2021, June 30, 2022, and June 30, 2023 were:

	June 30, 2021	June 30, 2022	June 30, 2023
Basic:			
Employee	11.00%	11.00%	11.00%
Employer	12.13%	12.34%	12.55%
Coordinated:			
Employee	7.50%	7.50%	7.50%
Employer	8.13%	8.34%	8.55%

The District's contributions to TRA for the plan's fiscal year ended June 30, 2023 were $1,336,018. The District's contributions were equal to the required contributions for each year as set by state statute.

The following is a reconciliation of employer contributions in TRA's fiscal year 2022, CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations.

Employer Contributions Reported in TRA's CAFR, Statement of Changes in Fiduciary Net Position	$ 482,679,000
Add Employer Contributions Not Related to Future Contribution Efforts	(2,178,000)

Total Employer Contributions	479,929,000
Total Non-Employer Contributions	35,590,000
Total Contributions Reported in Schedule of Employer and Non-Employer Allocations	$ 515,519,000

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

D. PENSION COSTS

GERP Pension Costs:
At June 30, 2022 the District reported a liability of $6,233,066 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of $16 million. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled $182,718. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022, relative to the total employer contributions received from all of PERA's participating employers. The District's proportion share was 0.0787% at the end of the measurement period and 0.0750% for the beginning of the period.

E. LONG-TERM EXPECTED RETURN ON INVESTMENT

GERP:
The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	33.50%	5.10%
International Equity	16.50%	5.30%
Fixed Income	25.00%	0.75%
Private Markets	25.00%	5.90%
	100.00%	

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE (Cont'd)

E. LONG-TERM EXPECTED RETURN ON INVESTMENT (Cont'd)

TRA:
The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year 2023 is six years. The Difference between Expected and Actual Experience, Changes of Assumptions, and Changes in Proportion use the amortization period of six years in the schedule presented. The amortization period for Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments" is five years as required by GASB 68.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	33.50%	5.10%
International Equity	16.50%	5.30%
Private Markets	25.00%	5.90%
Fixed Income	25.00%	0.75%
Total	100.00%	

F. ACTUARIAL ASSUMPTIONS

GERP:
The total pension liability in the June 30, 2022, actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 6.5 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.5 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the General Employees Plan. Benefit increases after retirement are assumed to be 1.25 percent for the General Employees Plan.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25 percent after one year of service to 3.0 percent after 27 years of service.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The tables are adjusted slightly to fit PERA's experience.

F. ACTUARIAL ASSUMPTIONS (Cont'd)

GERP: (Cont'd)
Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020 actuarial valuation.

The following changes in actuarial assumptions occurred in 2022:

Changes in Actuarial Assumptions:

The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

TRA:
The total pension liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applies to all periods included in the measurement:

None.

NOTE 9. DEFINED BENEFIT PENSION PLAN - STATEWIDE (Cont'd)

G. DISCOUNT RATE

GERP:
The discount rate used to measure the total pension liability in 2022 was 6.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the General Employees Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

TRA:
The discount rate used to measure the total pension liability was 7.00 percent. There was no change in the discount rate since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2022 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

H. PENSION LIABILITY SENSITIVITY

The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraphs, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

GERP:
Detailed information about the plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

NOTE 10. SUPPLEMENTAL PENSION PLAN

A. GENERAL INFORMATION ABOUT THE PENSION PLAN

Plan Description:
The District provides pension benefits to certain eligible employees through a single employer defined benefit plan administered by the District. The plan does not issue a publicly available financial report. All pension benefits are based on contractual agreements with employees and employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements.

Benefits Provided:
The Superintendent is eligible for a pension benefit upon termination of employment in an amount equal to 35% of the salary at the time of separation.

Teachers hired prior to July 1, 1988 are eligible for the pension benefit when age plus years of service equal 73. Teachers hired on or after July 1, 1988 are not eligible for the pension supplement. Teachers receive $26,000 less any accumulated employer contributions to the tax deferred matching contribution plan accumulated at 4% interest.

Support professionals and Technology System Specialists are eligible for the pension benefit after the attainment of age 55 and the completion of 20 years of service. Support professionals receive 25 days paid at the daily rate of pay at the time of retirement.

The Confidential Employee Group and certain other employees hired prior to July 1, 2001 are eligible for the pension benefit after the attainment of age 50 and the completion of 20 years of service. For those employees hired on or after July 1, 2001, the pension benefit is not available. The Confidential Employee Group and certain other employees receive 50 days paid at the daily rate of pay at the time of retirement less any accumulated employer contributions to the tax deferred matching contribution plan accumulated at 4% interest.

E. ACTUARIAL METHODS AND ASSUMPTIONS

The total OPEB liability in the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary Increases	Based on the most recently disclosed assumptions for the pension plan in which the employee participates.
Healthcare Cost Trend Rates	6.25% for 2023, decreasing over several decades to an ultimate rate of 4.00% for 2076 and later years.
Retiree's Share of Benefit-Related Costs	Assumed to increase with healthcare trend rates.

A discount rate of 3.80% was applied in the measurement of the total OPEB liability. The discount rate is based on the index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2020 Generational Improvement Scale.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2021–June 30, 2022.

NOTE 13. SELF-INSURED DENTAL PLAN

The District has elected to self-insure their employee dental insurance program. The District has entered into an agreement with a third party administrator to provide claims processing and other administrative duties. The District established an internal service fund to account for contributions from other funds for premiums for dental insurance. The annual maximum benefit per participant is $1,000. The amounts charged to expenses include administrative fees, claims paid and accruals for claims incurred but not paid at year end. The District recorded expenses of $0, during the current year.

NOTE 14. COMMITMENTS AND CONTINGENCIES

A. FEDERAL AND STATE PROGRAMS

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. CONSTRUCTION COMMITMENT

The District has active construction projects as of June 30, 2023. The projects include the following:

	Original Contract	Remaining Commitment
Hutchinson West Elementary Renovations	$ 2,987,887	$ 100,797
Hutchinson Park Elementary Renovations	10,002,224	595,977

NOTE 15. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees (workers' compensation); and natural disasters. To mitigate these risks, the District has obtained commercial property and casualty insurance and workers' compensation coverage. The District pays an annual premium with no additional assessments.

Some of the District's risk management activities are recorded in the Internal Service Fund. The purpose of the fund is to administer the dental program of the District on a cost reimbursement basis. This fund accounts for the risk financing activities of the District but does not constitute a transfer of risk from the District.

Significant losses are covered by commercial insurance for all major programs except for the dental benefits, for which the District retains risk of loss. For insured programs, there have been no significant reductions in insurance coverage from the previous year. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

NOTE 16. JOINT POWERS AGREEMENT

The District and the City of Hutchinson (Sponsors) have entered into a joint powers agreement to offer programs of academic improvement, enrichment, vocational improvement, leisure and recreation services, program coordination, and social action utilizing School District physical plants, City Parks and recreation facilities, private resources, if and when available, for all ages, for all social and economic groups residing within the geographic boundaries of the Sponsors.

The Joint Powers Entity is governed by a Joint Powers Board that consists of nine members as follows: a) one member to be selected from the School Board annually, b) one member to be selected from the City Council annually, and c) seven members at large to be appointed jointly by the School Board and the City Council with terms to be three years in length.

The City employs an individual who acts as Director for the Community Education Program as well as the Parks and Recreation Program. Costs for this Director position are shared equally between the District and the City. This agreement renews automatically every three years but may be terminated by giving a 12 month notification.

NOTE 17. RECLASSIFICATION

Certain immaterial prior year financial statement amounts have been reclassified to conform to current year's presentation. There was no affect on total net position or fund balance.

NOTE 18. PRIOR PERIOD ADJUSTMENT

Net position of the governmental activities as of June 30, 2022 has been adjusted to reflect a correction of an error. In the District's June 30, 2022 financial statements, $92,300 in Land Improvements were incorrectly excluded from the District's capital asset balances. The June 30, 2022 balance for Land Improvements and the expenses of Sites and Buildings have been restated from $4,508,299 to $4,600,599 (an increase of $92,300) and $4,254,645 to $4,162,345 (a decrease of $92,300), respectively.

NOTE 19. SUBSEQUENT EVENT

On August 14, 2023, the District voted to approve issuance of General Obligation School Building, Facilities Maintenance, and Capital Facilities Bonds, Series 2024A, in the aggregate amount not to exceed $3,815,000. The purpose of the bonds is to finance various improvements throughout the District.

2020 Changes:
Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 Changes:
The employer supplemental contribution was changed prospectively, decreasing from $31.0 million to $21.0 million per year. The State's special funding contribution was changed prospectively, requiring $16.0 million due per year through 2031.

2018 Changes:
The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.

Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.

Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.

Contribution stabilizer provisions were repealed.

Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.

For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.

Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2020 Changes:
The discount rate was changed from 3.10% to 2.40%.

2019 Changes:
The health care trend rates were changed to better anticipate short term and long term medical increases.

The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2018 Generational Improvement Scale.

The salary increase rates were changed from a flat 3.00% per year for all employees to rates which vary by service and contract group.

The discount rate was changed from 3.40% to 3.10%.

The retiree plan participation percentage was reduced from 50% to 5% for dental and 40% for medical for future retirees in contract groups other than teachers and administrators who are not eligible for a post-employment subsidy.

NOTE 2. CHANGES IN ACTUARIAL ASSUMPTIONS (Cont'd)

D. OTHER POST-EMPLOYMENT BENEFITS PLAN (OPEB) NOT ADMINISTERED IN A TRUST (Cont'd)

2018 Changes:
A discount rate of 3.40% was applied in the measurement of the total OPEB liability. The discount rate is based on the index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality rates were based on the RP-2014 White Collar Mortality Tables (de-trended to 2006) and then projected beyond the valuation date using scale MP-2016.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2016–June 30, 2017.

The health care trend rates were changed to better anticipate short term and long term medical increases.

The mortality tables were updated from the RP-2014 White Collar Mortality Tables projected with scale MP-2015 to the RP-2014 White Collar Mortality Tables (de-trended to 2006) and then projected beyond the valuation date using scale MP-2016.

2017 Changes:
There have been no changes since the prior valuation.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To The Board of Education
Independent School District #423
Hutchinson, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #423, Hutchinson, Minnesota, as of and for the year ended June 30, 2023, and the related notes to the financial statements, and have issued our report thereon dated December 11, 2023.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the contracting - bid laws, depositories of public funds and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards of the *Minnesota Legal Compliance Audit Guide for School Districts,* promulgated by the State Auditor pursuant to Minn. Stat. §6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STUDENT ACTIVITIES COMPLIANCE

Members of the Board of Education, Advisors, and Students
Independent School District #423
Hutchinson, Minnesota

We have audited Independent School District #423's compliance with the types of compliance requirements described in the *Manual for Activity Fund Accounting* issued by the Minnesota Department of Education, pursuant to Minnesota Statutes §123B.49 for the year ended June 30, 2023. The *Manual for Activity Fund Accounting* provides uniform financial accounting and reporting standards for student activities.

We believe that our audit provides a reasonable basis for our opinion on compliance with the *Manual for Activity Fund Accounting.* Our audit does not provide a legal determination of the District's compliance with those requirements.

Opinion

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the Student Activity Fund for the year ended June 30, 2023.

Management's Responsibility

Management is responsible for compliance with the requirements referred to above.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance based on our audit. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the *Manual for Activity Fund Accounting*. Those standards and the *Manual for Activity Fund Accounting* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the District occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PREFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To The Board of Education
Independent School District #423
Hutchinson, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #423, Hutchinson, Minnesota, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 11, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as 2023-001 and 2023-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education
Independent School District #423
Hutchinson, Minnesota

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Independent School District #423's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance, we:

Exercise professional judgment and maintain professional skepticism throughout the audit.

Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Report on Internal Control Over Compliance (Cont'd)

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

II. FINDINGS RELATED TO FINANCIAL STATEMENTS AUDITED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

FINDING: 2023-001 LIMITED SEGREGATION OF DUTIES

Condition: There is an absence of appropriate segregation of duties consistent with appropriate control objectives due to a limited number of employees.

Criteria: The basic premise is that no one person should have access to both physical assets and the related accounting records or to all phases of a transaction. The lack of such controls could result in the occurrence of a material error or fraud in relation to the financial statements not being detected by management.

Cause: The District has assigned duties to staff based on a cost-benefit relationship to the District and the practicality of the level of staffing the District maintains.

Effect: The lack of adequate segregation of duties could adversely affect the District's ability to initiate, record, process and report financial data consistent with the assertions of management in the financial statements.

Recommendation: The District should continue to monitor and evaluate the job responsibilities assigned to staff to determine whether there is an unacceptable risk.

CORRECTIVE ACTION PLAN (CAP):
Explanation of Disagreement with Audit Findings:
There is no disagreement with the audit finding.

Actions Planned in Response to Finding:
The District is aware of the limited segregation of duties and will continue to review internal controls and make changes when and where they can be made.

Official Responsible for Ensuring CAP:
Rebecca Boll, Director of Business and Finance, is the official responsible for ensuring corrective action of the deficiency.

Planned Completion Date for CAP:
June 30, 2024

Plan to Monitor Completion of CAP:
Board of Education

II. FINDINGS RELATED TO FINANCIAL STATEMENTS AUDITED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

FINDING: 2023-002 AUDITOR PREPARED FINANCIAL STATEMENTS

Condition: The District does not have an internal control system designed to provide for the preparation of the financial statements and the related notes being audited. However, based on the degree of complexity and level of detail needed to prepare the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), the District has requested the auditors to prepare them.

Criteria: The preparation of the financial statements and the related notes are the responsibility of management.

Cause: There are a limited number of office employees and resources available to allow for the adequate preparation of the financial statements and the related notes by the District.

Effect: This could result in a material misstatement to the financial statements and related notes that would not be prevented, or detected and corrected as a result of the District's current internal control.

Recommendation: The District should continue to request the assistance to draft the financial statements and related notes and thoroughly review these financial statements after they have been prepared so the District can take responsibility for them.

CORRECTIVE ACTION PLAN (CAP):
Explanation of Disagreement with Audit Findings:
There is no disagreement with the audit finding.

Actions Planned in Response to Finding:
The District will continue to provide all of the financial information to the auditing firm for the financial reports. Upon completion of the annual audit by the auditing firm on the financial data, the District will work to develop a policy and plan to prepare the necessary financial reports as part of the annual audit.

Official Responsible for Ensuring CAP:
Rebecca Boll, Director of Business and Finance, is the official responsible for ensuring corrective action of the deficiency.

Planned Completion Date for CAP:
June 30, 2024

Plan to Monitor Completion of CAP:

(HUTCHINSON PUBLIC SCHOOLS)
MCLEOD, MEEKER, AND RENVILLE COUNTIES, MINNESOTA
GENERAL OBLIGATION SCHOOL BUILDING, FACILITIES MAINTENANCE, AND
CAPITAL FACILITIES BONDS
SERIES 2024A

We have acted as bond counsel to Independent School District No. 423 (Hutchinson Public Schools), McLeod, Meeker, and Renville Counties, Minnesota (the "Issuer"), in connection with the issuance by the Issuer of its General Obligation School Building, Facilities Maintenance, and Capital Facilities Bonds, Series 2024A (the "Bonds"), originally dated May ___, 2024, and issued in the original aggregate principal amount of $________. In such capacity and for the purpose of rendering this opinion we have examined certified copies of certain proceedings, certifications and other documents, and applicable laws as we have deemed necessary. Regarding questions of fact material to this opinion, we have relied on certified proceedings and other certifications of public officials and other documents furnished to us without undertaking to verify the same by independent investigation. Under existing laws, regulations, rulings, and decisions in effect on the date hereof, and based on the foregoing we are of the opinion that:

1. The Bonds have been duly authorized and executed and are valid and binding general obligations of the Issuer, enforceable in accordance with their terms.

2. The principal of and interest on the Bonds are payable from ad valorem taxes levied by the Issuer on all taxable property of the Issuer, but if necessary for the payment thereof, additional ad valorem taxes are required by law to be levied on all taxable property of the Issuer, which taxes are not subject to any limitation as to rate or amount.

3. Interest on the Bonds is excludable from gross income of the recipient for federal income tax purposes and, to the same extent, is excludable from taxable net income of individuals, trusts, and estates for Minnesota income tax purposes, and is not a preference item for purposes of the computation of the federal alternative minimum tax, or the computation of the Minnesota alternative minimum tax imposed on individuals, trusts, and estates. However, such interest is included in determining the annual adjusted financial statement income (as defined in Section 59(k) of the Internal Revenue Code of 1986, as amended (the "Code")) of applicable corporations (as defined in Section 59(k) of the Code) for purposes of computing the alternative minimum tax imposed on such applicable corporations, and is subject to Minnesota franchise taxes on certain corporations (including financial institutions) measured by income. The opinion set forth in this paragraph is subject to the condition that the Issuer comply with all requirements of the Code that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be, or continue to be, excludable from gross income for federal income tax purposes and from taxable net income for Minnesota income tax purposes. The Issuer has covenanted to comply with all such requirements. Failure to comply with certain of such requirements may cause interest on the Bonds to be included in gross income for federal income tax purposes and taxable net income for Minnesota income tax purposes retroactively to the date of issuance of the Bonds. We express no opinion regarding tax consequences arising with respect to the Bonds other than as expressly set forth herein.

4. The rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights generally and by equitable principles, whether considered at law or in equity.

5. The resolution adopted by the School Board of the Issuer on August 14, 2023, obligates the Issuer to be bound by the provisions of Minnesota Statutes, Section 126C.55. We express no opinion as to the enforceability of the provisions of that law against the State of Minnesota (the "State") in the absence of appropriated and available funds to pay the obligations of the State thereunder.

We have not been asked and have not undertaken to review the accuracy, completeness, or sufficiency of the Official Statement or other offering material relating to the Bonds, and accordingly we express no opinion with respect thereto.

This opinion is given as of the date hereof and we assume no obligation to update, revise, or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Dated ________________, 2024, at Minneapolis, Minnesota.

APPENDIX C

BOOK-ENTRY-ONLY SYSTEM

1. The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the securities (the "Securities"). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for [each issue of] the Securities, [each] in the aggregate principal amount of such issue, and will be deposited with DTC. [If, however, the aggregate principal amount of [any] issue exceeds $500 million, one certificate will be issued with respect to each $500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of such issue.]

2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. [Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.]

6. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. A Beneficial Owner shall give notice to elect to have its Securities purchased or tendered, through its Participant, to [Tender/Remarketing] Agent, and shall effect delivery of such Securities by causing the Direct Participant to transfer the Participant's interest in the Securities, on DTC's records, to [Tender/Remarketing] Agent. The requirement for physical delivery of Securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Securities are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Securities to [Tender/Remarketing] Agent's DTC account.

10. DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to the District or Agent. Under such circumstances, in the event that a successor depository is not obtained, Security certificates are required to be printed and delivered.

11. The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

12. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

A default under this Disclosure Certificate shall not be deemed an event of default with respect to the Bonds and the sole remedy under this Disclosure Certificate in the event of any failure of the District to comply with this Disclosure Certificate shall be an action to compel performance.

ADJUSTMENT OPTION

The District reserves the right to decrease the principal amount of the Bonds on the day of sale, in increments of $5,000 each. Increases or decreases may be made in any maturity. If any principal amounts are adjusted, the purchase price proposed will be adjusted to maintain the same gross spread per $1,000.

TERM BOND OPTION

Proposals for the Bonds may contain a maturity schedule providing for any combination of serial bonds and term bonds, subject to mandatory redemption, so long as the amount of principal maturing or subject to mandatory redemption in each year conforms to the maturity schedule set forth above. (For example, if a rate of 4.50% is proposed for the 2025 maturity, then the lowest rate that may be proposed for any later maturity is 2.50%.)** All Bonds of the same maturity must bear interest from date of issue until paid at a single, uniform rate. Each rate must be expressed in an integral multiple of 5/100 or 1/8 of 1%.

BOOK-ENTRY-ONLY FORMAT

Unless otherwise specified by the purchaser, the Bonds will be designated in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Bonds, and will be responsible for maintaining a book-entry system for recording the interests of its participants and the transfers of interests between its participants. The participants will be responsible for maintaining records regarding the beneficial interests of the individual purchasers of the Bonds. So long as Cede & Co. is the registered owner of the Bonds, all payments of principal and interest will be made to the depository which, in turn, will be obligated to remit such payments to its participants for subsequent disbursement to the beneficial owners of the Bonds.

PAYING AGENT

The District has selected Bond Trust Services Corporation, Roseville, Minnesota ("BTSC"), to act as paying agent (the "Paying Agent"). BTSC and Ehlers are affiliate companies. The District will pay the charges for Paying Agent services. The District reserves the right to remove the Paying Agent and to appoint a successor.

OPTIONAL REDEMPTION

At the option of the District, the Bonds maturing on or after February 1, 2032 shall be subject to optional redemption prior to maturity on February 1, 2031 or any date thereafter, at a price of par plus accrued interest to the date of optional redemption.

Redemption may be in whole or in part of the Bonds subject to prepayment. If redemption is in part, the selection of the amounts and maturities of the Bonds to be redeemed shall be at the discretion of the District. If only part of the Bonds having a common maturity date are called for redemption, then the District or Paying Agent, if any, will notify DTC of the particular amount of such maturity to be redeemed. DTC will determine by lot the amount of each participant's interest in such maturity to be redeemed and each participant will then select by lot the beneficial ownership interest in such maturity to be redeemed.

Notice of redemption shall be sent by mail not more than 60 days and not less than 30 days prior to the date fixed for redemption to the registered owner of each Bond to be redeemed at the address shown on the registration books.

DELIVERY

On or about May 2, 2024, the Bonds will be delivered without cost to the winning bidder at DTC. On the day of closing, the District will furnish to the winning bidder the opinion of bond counsel hereinafter described, an arbitrage certification, and certificates verifying that no litigation in any manner questioning the validity of the Bonds is then pending or, to the best knowledge of officers of the District, threatened. Payment for the Bonds must be received by the District at its designated depository on the date of closing in immediately available funds.

LEGAL OPINION

An opinion as to the validity of the Bonds and the exemption from taxation of the interest thereon will be furnished by Kennedy & Graven, Chartered, Minneapolis, Minnesota, Bond Counsel to the District ("Bond Counsel"), and will be available at the time of delivery of the Bonds. The legal opinion will state that the Bonds are valid and binding general obligations of the District; provided that the rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or equitable proceeding). See "FORM OF LEGAL OPINION" found in Appendix B.

SUBMISSION OF PROPOSALS

Proposals must not be for less than $3,815,000 plus accrued interest on the principal sum of $3,815,000 from date of original issue of the Bonds to date of delivery. Prior to the time established above for the opening of proposals, interested parties may submit a proposal as follows:

1) Electronically to bondsale@ehlers-inc.com; or

2) Electronically via **PARITY** in accordance with this Terms of Proposal until 9:30 A.M. Central Time, but no proposal will be received after the time for receiving proposals specified above. To the extent any instructions or directions set forth in **PARITY** conflict with this Terms of Proposal, the terms of this Terms of Proposal shall control. For further information about **PARITY**, potential bidders may contact IHS Markit (now part of S&P Global) at https://ihsmarkit.com/products/municipal-issuance.html or via telephone (844) 301-7334.

Proposals must be submitted to Ehlers via one of the methods described above and must be received prior to the time established above for the opening of proposals. Each proposal must be unconditional except as to legality. Neither the District nor Ehlers shall be responsible for any failure to receive a facsimile submission.

A good faith deposit ("Deposit") in the amount of $76,300 shall be made by the winning bidder by wire transfer of funds. Such Deposit shall be received by Ehlers no later than two hours after the proposal opening time. Wire transfer instructions will be provided to the winning bidder by Ehlers after the tabulation of proposals. The District reserves the right to award the Bonds to a winning bidder whose wire transfer is initiated but not received by such time provided that such winning bidder's federal wire reference number has been received by such time. In the event the Deposit is not received as provided above, the District may award the Bonds to the bidder submitting the next best proposal provided such bidder agrees to such award. The Deposit will be retained by the District as liquidated damages if the proposal is accepted and the Purchaser fails to comply therewith.

The District and the winning bidder who chooses to so wire the Deposit hereby agree irrevocably that Ehlers shall be the escrow holder of the Deposit wired to such account subject only to these conditions and duties: 1) All income earned thereon shall be retained by the escrow holder as payment for its expenses; 2) If the proposal is not accepted, Ehlers shall, at its expense, promptly return the Deposit amount to the winning bidder; 3) If the proposal is accepted, the Deposit shall be returned to the winning bidder at the closing; 4) Ehlers shall bear all costs of maintaining the escrow account and returning the funds to the winning bidder; 5) Ehlers shall not be an insurer of the Deposit amount and shall have no liability hereunder except if it willfully fails to perform or recklessly disregards, its duties specified herein; and 6) FDIC insurance on deposits within the escrow account shall be limited to $250,000 per bidder.

No proposal can be withdrawn after the time set for receiving proposals unless the meeting of the District scheduled for award of the Bonds is adjourned, recessed, or continued to another date without award of the Bonds having been made.

AWARD

The Bonds will be awarded to the bidder offering the lowest interest rate to be determined on a True Interest Cost (TIC) basis. The District's computation of the interest rate of each proposal, in accordance with customary practice, will be controlling. In the event of a tie, the sale of the Bonds will be awarded by lot. The District reserves the right to reject any and all proposals and to waive any informality in any proposal.

BOND INSURANCE

If the Bonds are qualified for any bond insurance policy, the purchase of such policy shall be at the sole option and expense of the winning bidder. Any cost for such insurance policy is to be paid by the winning bidder, except that, if the District requested and received a rating on the Bonds from a rating agency, the District will pay that rating fee. Any rating agency fees not requested by the District are the responsibility of the winning bidder.

Failure of the municipal bond insurer to issue the policy after the Bonds are awarded to the winning bidder shall not constitute cause for failure or refusal by the winning bidder to accept delivery of the Bonds.

CUSIP NUMBERS

The District will assume no obligation for the assignment or printing of CUSIP numbers on the Bonds or for the correctness of any numbers printed thereon, but will permit such numbers to be printed at the expense of the winning bidder, if the winning bidder waives any delay in delivery occasioned thereby.

QUALIFIED TAX-EXEMPT OBLIGATIONS

The District will designate the Bonds as "qualified tax-exempt obligations" for purposes of Section 265(b)(3) of the Internal Revenue Code of 1986, as amended.

CONTINUING DISCLOSURE

In order to assist the Underwriter (Syndicate Manager) in complying with the provisions of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934 the District will enter into an undertaking for the benefit of the holders of the Bonds. A description of the details and terms of the undertaking is set forth in Appendix D of the Preliminary Official Statement.

NEW ISSUE PRICING

The winning bidder will be required to provide, in a timely manner, certain information necessary to compute the yield on the Bonds pursuant to the provisions of the Internal Revenue Code of 1986, as amended, and to provide a certificate which will be provided by Bond Counsel upon request.

(a) The winning bidder shall assist the District in establishing the issue price of the Bonds and shall execute and deliver to the District at closing an "issue price" or similar certificate satisfactory to Bond Counsel setting forth the reasonably expected initial offering price to the public or the sales price or prices of the Bonds, together with the supporting pricing wires or equivalent communications. All actions to be taken by the District under this Terms of Proposal to establish the issue price of the Bonds may be taken on behalf of the District by the District's municipal advisor identified herein and any notice or report to be provided to the District may be provided to the District's municipal advisor.

(b) The District intends that the provisions of Treasury Regulation Section 1.148-1(f)(3)(i) (defining "competitive sale" for purposes of establishing the issue price of the Bonds) will apply to the initial sale of the Bonds (the "competitive sale requirements") because:

(1) The District shall disseminate this Terms of Proposal to potential underwriters in a manner that is reasonably designed to reach potential investors;

(2) all bidders shall have an equal opportunity to bid;

(3) the District may receive proposals from at least three underwriters of municipal bonds who have established industry reputations for underwriting new issuances of municipal bonds; and

(4) the District anticipates awarding the sale of the Bonds to the bidder who submits a firm offer to purchase the Bonds at the highest price (or lowest interest cost), as set forth in this Terms of Proposal.

Any proposal submitted pursuant to this Terms of Proposal shall be considered a firm offer for the purchase of the Bonds, as specified in this proposal.

(c) If all of the requirements of a "competitive sale" are not satisfied, the District shall advise the winning bidder of such fact prior to the time of award of the sale of the Bonds to the winning bidder. In such event, any proposal submitted will not be subject to cancellation or withdrawal and the District agrees to use the rule selected by the winning bidder on its proposal form to determine the issue price for the Bonds. On its proposal form, each bidder must select one of the following two rules for determining the issue price of the Bonds: (1) the first price at which 10% of a maturity of the Bonds (the "10% test") is sold to the public as the issue price of that maturity or (2) the initial offering price to the public as of the sale date as the issue price of each maturity of the Bonds (the "hold-the-offering-price rule").

(d) If all of the requirements of a "competitive sale" are not satisfied and the winning bidder selects the hold-the-offering-price rule, the winning bidder shall (i) confirm that the underwriters have offered or will offer the Bonds to the public on or before the date of award at the offering price or prices (the "initial offering price"), or at the corresponding yield or yields, set forth in the proposal submitted by the winning bidder and (ii) agree, on behalf of the underwriters participating in the purchase of the Bonds, that the underwriters will neither offer nor sell unsold Bonds of any maturity to which the hold-the-offering-price rule shall apply to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

(1) the close of the fifth (5^{th}) business day after the sale date; or

(2) the date on which the underwriters have sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The winning bidder will advise the District promptly after the close of the fifth (5^{th}) business day after the sale whether it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The District acknowledges that in making the representation set forth above, the winning bidder will rely on:

(i) the agreement of each underwriter to comply with requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-price rule, if applicable to the Bonds, as set forth in an agreement among underwriters and the related pricing wires,

(ii) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in a selling group agreement and the related pricing wires, and

(iii) in the event that an underwriter or dealer who is a member of the selling group is a party to a third-party distribution agreement that was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is party to such agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The District further acknowledges that each underwriter shall be solely liable for its failure to comply with its agreement regarding the requirements for establishing issue price rule of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, and that no underwriter shall be liable for the failure of any other underwriter, or of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a third-party distribution agreement to comply with its corresponding agreement to comply with the requirements for establishing issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule as applicable to the Bonds.

(e) If all of the requirements of a "competitive sale" are not satisfied and the winning bidder selects the 10% test, the winning bidder agrees to promptly report to the District, Bond Counsel and Ehlers the prices at which the Bonds have been sold to the public. That reporting obligation shall continue, whether or not the closing date has occurred, until either (i) all Bonds of that maturity have been sold or (ii) the 10% test has been satisfied as to each maturity of the Bonds, provided that, the winning bidder's reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the District or bond counsel.

(f) By submitting a proposal, each bidder confirms that:

(i) any agreement among underwriters, any selling group agreement and each third-party distribution agreement (to which the bidder is a party) relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter, each dealer who is a member of the selling group, and each broker-dealer that is party to such third-party distribution agreement, as applicable, to:

(A) report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing Date has occurred until either all securities of that maturity allocated to it have been sold or it is notified by the winning bidder that either the 10% test has been satisfied as to the Bonds of that maturity, provided that, the reporting obligation after the Closing Date may be at reasonable periodic intervals or otherwise upon request of the District or bond counsel.

(B) comply with the hold-the-offering-price rule, if applicable, in each case if and for so long as directed by the winning bidder and as set forth in the related pricing wires, and

(ii) any agreement among underwriters or selling group agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each underwriter, each dealer who is a member of the selling group and each broker dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to:

(A) to promptly notify the winning bidder of any sales of Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below), and

(B) to acknowledge that, unless otherwise advised by the underwriter, dealer or broker-dealer, the winning bidder shall assume that each order submitted by the underwriter, dealer or broker-dealer is a sale to the public.

(g) Sales of any Bonds to any person that is a related party to an underwriter participating in the initial sale of the Bonds to the public (each term being used as defined below) shall not constitute sales to the public for purposes of this Terms of Proposal. Further, for purposes of this Terms of Proposal:

(i) "public" means any person other than an underwriter or a related party,

(ii) "underwriter" means (A) any person that agrees pursuant to a written contract with the District (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Bonds to the public),

(iii) a purchaser of any of the Bonds is a "related party" to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (A) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (B) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (C) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

(iv) "sale date" means the date that the Bonds are awarded by the District to the winning bidder.
